DETAILED ACTION

Application Status

The request filed on 11 November 2002 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/371,347 is acceptable and a CPA has been established.

Claims 1-5 and 35-53 are pending in the application.

Applicants' amendment to claims 3, 36-38, and 41-43 and addition of claims 48-53 in Paper No. 16, filed 05/20/02, is acknowledged.

Election of Species

1. This application contains claims directed to the following patentably distinct species of the claimed invention: nucleic acids encoding mammalian MTRR polypeptides comprising SEQ ID NOs: 25-40 and 52-61.
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 47-50 are generic.
3. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.
4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one

Art Unit: 1652

of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. A telephone call was made to Ms. Bieker-Brady on 12/12/02 for an election of species as described above. Ms. Bieker-Brady requested a written copy of the species election.
